

# *Wimba Classroom Media Center Features*

A Student Success Guide

## *Preparing Participants BEFORE Session*

- Run the wizard before your session begins which checks for...
  - Popup blockers
  - Supported browsers
  - Correct Java version
  - Audio capability

*\* Having trouble with wizard? Contact 24/7 support*

## *Three Audio Functions*

**Netstats:** A faculty visual indicator of participant internet connection strength.

**Talk Key:** Allows you to communicate using a headset and microphone

**Simulcast:** Use your telephone to communicate (Listen & Speak)

## *Netstat Indicator*

- Visual indicators to help you monitor the connection quality:

Green = Good

Yellow = Average

Red = Low \*

Grey = not connected \*\*

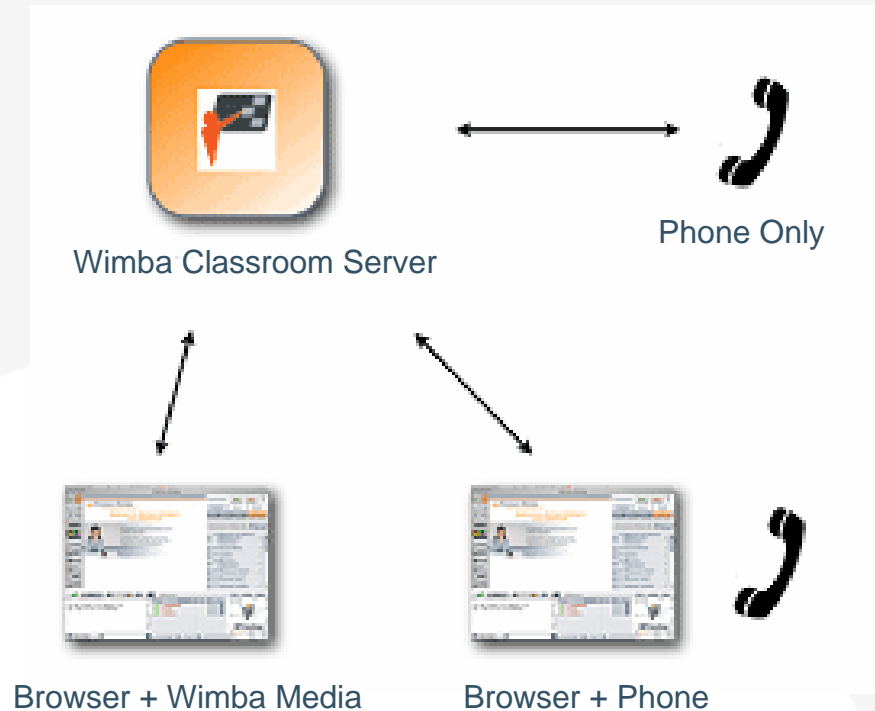

Telephone = participant has dialed in

*\* Wimba Classroom uses low band width so even a “Red” connection will still provide an enjoyable session*

*\*\* Participant should dial into session or call 24/7 support*

## *Phone Simulcast*

- Join via cell phone, or landline
- Speak, listen and collaborate together without being tied to a computer

## *How to get help*
